

“The Air Iceland logo, shaping the winged horse, has played a large role in the region in and around Iceland throughout Icelandic aviation history. Through time, it has evolved and modernized, always as an important part of Icelandic aviation. It gives us pride to work with ABC International as we install the Decorative Crest on Bombardier DHC-8 202Q & DHC-8 402Q, supported by an anodized lightweight aluminum panel.”

Name: Gudmundur Oskarsson
Title: Head of Marketing & Sales

“FL technics takes care of cabin retrofit project. To reach the best performance we collaborate with some Companies all around the world which can support us in professionalism, efficiency and knowhow. ABC International’s support in design, manufacturing and certification of Decorative Crest and Partitions for Small Planet Airlines allowed us to deliver innovative and lightweight solution to our customer.”

Marius Gureckas
Senior Project Manager (EASA Part 21 DOA)
Engineering and Planning Department

“ABC International was a very performing partner as they proactively supported ALITALIA A330 new cabin presentation on the 4th June 2015 in Fiumicino Airport (Rome).Their Decorative Elements are today installed on all our fleet and we are aware passengers are enjoying our new cabin interiors ”

Veronica La Marca, Cabin Interiors & Entertainment Systems Manager

“Since Latam Airlines takes care of any cabin interior detail, when Priestmangoode designed the Welcome Panel for our new A350 XWB we selected ABC International to manufacture and certify these decorative elements. ABC International was a good partner to reach a nice and good quality welcome panel in our cabin. They were able to fulfill our requirements with our finishing requirements which includes chrome, gold plated and black anodized surface treatments”

Jaime Díaz Mendoza | Cabin Development Project Manager |
LATAM Airlines Group
